

## CHARMED GEESE

(1) 2 ½" X 12 ½" centre strip

(3) 10" squares . Cut one of these into (4) 4 ½" squares

Make (4) flying geese units from the other two 10" squares, using the "No-Waste" or "4 at a time" technique. The centres of the geese are made from (1) 9 ½" square, and the sides are from (4) matching 5" squares. These are then trimmed up to 8 ½" x 4 ½". When trimming, be sure your seam allowance at the point is ¼". (You can also use a 9 1/4" centre and (4) 4 7/8" side squares, instead of squaring up).

Add the 4 ½" squares to the right short edge of each of the geese units when viewed as if they are "flying" away from you. Position all units (including the centre strip) as in the picture. Sew together. Layer, quilt, add label and bind.
