

## Teddy Bear's Friends

32 x 37 inches

Materials: 28 assorted coloured 5 inch squares. (charm squares)  
28 white or a contrasting colour 5 inch squares.

Arrange them alternately 7 squares across and 8 rows down starting with a coloured square. Arrange the coloured squares in a pleasing pattern.

I arranged mine in an angled pattern because I used a charm pack, but you could use assorted squares of any colour.

Layer and quilt as desired.

I needed 3 1/2 stripes of binding cut at 2 1/2 inches.
