I have a downloadable pattern for making this quilt cutting the pieces with the AccuQuilt GO! and also **rotary cutting directions!**

I made a cute little batik quilt that can be used for a baby or on a table as a table topper.

This is a great scrap quilt to make as you only use a few pieces for each block. I used bright colorful batik fabrics for the baby quilt.

24" x 29" Baby Quilt

Fabrics:

- 1-yard background fabric
- 9 fat quarters in different colors
- ¼ yard for binding
- 1-yard backing

Rotary Cutting Directions:

Background Print

- Cut 42 – 2½" x 4½" rectangles
- Cut 16 – 2½" squares
- Cut 28 – 3" squares
- Cut 2 – 1½" x 24" borders

Prints

Block 1 – make 5

- Cut 4 – 3" squares from 5 different colors

Block 2 – make 4

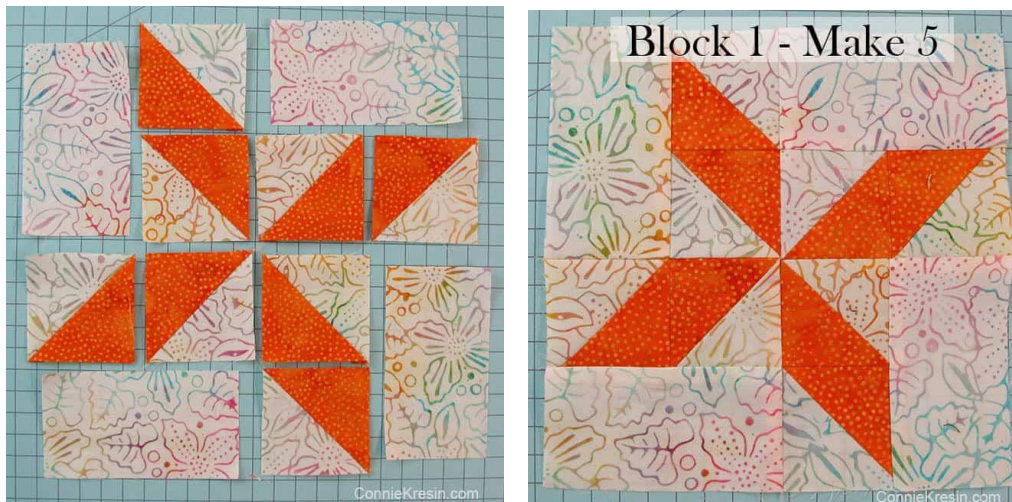

- Cut 2 – 3" squares from 4 different colors

Cut 4 – 2½" squares and 4 – 2½" x 4½" rectangles for border in various colors.

Creating the Blocks

Block 1

Layout your pieces as shown.

Block 1 – make 5 using a different fat quarter or scraps for each one.

Block 2

Make your HSTs the same as block 1. You are making 4 HSTs for each block.

Add a #2 square and a #8 rectangles to each HST as shown.

Sew the 4 sections together.

Block 2 – make 4 using a different fat quarter or scraps for each one.

Layout your blocks and sew the rows together. This will make a baby quilt that is 24" x 24".

I wanted the baby quilt to be a little longer so I added a couple borders. Cut 2 – 1 1/2" x 24" strips and sew to the top and bottom of the quilt. Add a pieced border that includes 2 – #2 squares and 5 – #8 rectangles using the following diagram.

Add your batting and backing and quilt as desired.
